IFRS 9, issued in July 2014, replaced the existing guidance in IAS naacial Instruments: Recognition and Measurement. IFRS 9 sets out requirements for recognising and measuring financial assets, financial liabilities and some contracts to buy or sethifinancial items IFRS 9 replaced the current 'incurred loss' model with a forwardooking 'expected credit loss' model. The adoption of IFRS 9 resulted in recognition of additional provisions for impairment of receivables under the expected credit loss. The overall impact of applying the standard resulted in recognition of additional allowance on accounts receivables recognized directly in equity in the amount of ,831 million RUB net of deferred income tax at 1 January 2018. As permitted by IFRS somparatives have not been restated.

IFRS 15, issued in May 2014, establishæcomprehensive framework for determining whether, how much and when revenue is recognised. It replaced existing revenue recognition guidance, including IAS 1. Revenue, IAS 11 Construction Contracts and IFRIC 13 Customer Loyalty Programmes. The core principle of the new standard is that an entity recognises revenue when a customer obtains control of the goods. Based management's analysis performed the standard does not have enaterial effect on the Group's consolidated financial statements, no transition adjustment has been made and comparative information has not be restated.
